

## VAT Implementation and compliance

Federal Tax Authority (FTA) is eligible to audit any business for the tax compliance by sending a 5 business days notice. We support companies to be fully equipped, compliant and prepared to the FTA audit to avoid fines if the business is not in compliance. Be compliant from the first day of starting your operations.

What to do when you receive a tax audit notice from FTA?

You have 5 business days to get ready.

Keep accessible relevant premises, documents and staff as well as FTA Audit File (FAF) ready.
